

**DEAN RYAN**  
CORPORATION

*Celebrating 25 years*

Providing innovative water, wastewater solutions to clients nationwide.

***Dean Ryan Consultants & Designers, Inc.***

Dean Ryan is a multi-disciplined engineering and environmental consulting firm providing technically sound, economically efficient engineering and environmental restoration services for water, wastewater treatment, water distribution including utility design and relocation; feasibility studies; drainage and flood control. The experience of our engineers brings a project focus and technical excellence to our clients in the design and construction management of public works facilities including the design of flood control structures, dams, channels, reservoirs, large and small diameter pipelines. We receive design awards for engineering excellence from the American Consulting Engineers Council (ACEC), and the Los Angeles Council of Engineers and Scientists (LACES) and other industry groups.

Dean Ryan Engineers and Scientists are consistently at the forefront of innovative, state-of-the-art concepts and design for water, wastewater system and projects. The variety of specialized water and wastewater engineering services we provide to our clients include wastewater treatment plant owners/operators include the design of advanced and secondary treatment plants, land and water body discharge systems, physical and biological nutrient removal systems; biosolids management facilities employing aerobic and anaerobic digestion, and beneficial reuse systems. Our process engineering professionals provide our municipal clients with experience in all aspects of water supply treatment. Our experience extends throughout the State of California, Arizona and Nevada. Federal government clients include the Department of Defense, Federal Highway Administration and the Bureau of Reclamation Mid-Pacific Region.

### Proven Players

Dean Ryan's engineering team manages highly visibility programs such as the worldwide Water and Energy Conservation Program for the Department of the Navy. In this successful, nine-year program, our staff worked with the highest levels of the military to reduce their utility costs by 20% within a five-year period; we exceeded their expectations in half the time, saving millions of dollars for our client .

### Efficient and Effective Management

Dean Ryan has managed multi-million dollar projects on time and within budget, earning several "Excellent" performance ratings. We have won engineering achievement awards for technical innovation and excellent approach to the successful accomplishment of complex projects with minimal impact on concurrent operations and the community. Each client is served by a Dean Ryan account focus team, headed by a Senior Client Manager. All activities are conducted with approved plans, budgets, and timetables. Our success is due to our close involvement with each client, our 25 years of practical experience, and our understanding and focus on the exact needs of each client.
